AMIT SHRESTHA

BSc (Hons) Computing Graduate | Assistant Lecturer

shresthaamit273@gmail.com | 9819042907 | Urlabari, Morang | github.com/shresthaamit

PERSONAL PROFILE

Dedicated Academic Faculty and Project Coordinator with experience delivering Software Engineering modules in higher education through a student-centred teaching approach. Skilled in software engineering, systems analysis and design, full-stack web development, and supervising final-year projects. Proficient in Django, React, database systems, and data analytics, with a commitment to developing industry-ready graduates through practical and engaging learning experiences.

WORK HISTORY

Academic Member | **Jan 2023 – Present**
Itahari International College

- Lead and support delivery of Software Engineering and Fundamentals of Computing modules through lectures, lab sessions, tutorials, and guided practice.
- Supported formative coursework and designed internal assignments aligned with the module learning outcomes.
- Contributed to module and lesson planning, delivered undergraduate lectures and practical sessions, and designed and delivered internal group and individual Git and GitHub practical exercises.
- Delivered lectures, tutorials, and practical labs on SDLC, Agile, UML, software testing (Unit Testing), and software project management tools (Trello).
- Supervised individual and group software development projects from requirements analysis to implementation and testing.
- Administered and assessed coursework, practical assignments, and examinations, providing timely and constructive feedback.
- Applied industry practices including Agile, Git, design patterns, and collaborative software development to enhance student learning.

Project Coordination | **Jan 2025 – Present**
Itahari International College

- Coordinate BSc (Hons) Computing final year projects across multiple student cohorts, ensuring alignment with programme learning outcomes and industry-relevant standards.
- Match students with internal and external supervisors based on project domain, providing structured mentorship, milestone tracking, and technical guidance throughout the project lifecycle.
- Organize and lead project evaluation panels, coordinating with faculty members to assess technical quality, innovation, and adherence to software engineering best practices.
- Guide students through the full software project lifecycle, from proposal and requirements analysis to system design, implementation, testing, and final documentation.

Junior Django Developer | **June 2021 – November 2021**
Infinite IT Solutions

- Developed and maintained full-stack website and web application features using the Django framework, contributing to both backend logic and user-facing functionality.
- Collaborated closely with senior developers throughout the software development lifecycle to design, review, and implement effective, scalable web solutions.
- Built and integrated backend functionality, including database models, business logic, and API endpoints, using Django to ensure reliable and maintainable code.

ACADEMIC BACKGROUND

Urlabari Multiple Campus | Tribhuvan University
MBS – Thesis Remaining
Expected Completion: 2026

Nepal Darshan Secondary School
Intermediate (10+2), 2018
CGPA: 3.42

Itahari International College | London Met University
BSc (Hons) Computing, December 2022
First Class Honours – 72.28%

CERTIFICATIONS

- Complete SDLC: Software Development Life Cycle SDLC (2026) – Udemy
- Project Management with Trello: A-Z Guide – Udemy
- Google IT Support – Google
- Programming for Everybody (Python) – Coursera
- Web Development Foundations – Coursera
- Principles of Financial Accounting – IESE Business School (Coursera)

TECHNICAL SKILLS

- Agile & Scrum Methodologies
- Python (data handling, analytical logic)
- Relational Databases & SQL
- Django & Django REST Framework
- Software Development Life Cycle (SDLC)
- Project Management (Trello, Sprint Planning)
- Data analysis tools and techniques
- Git & GitHub
- Linux & Windows environments
- Requirements Analysis & Technical Documentation
